

Stabilizzante Carburante

Product Sheet

Stabilizzante Carburante is an additive both for gasoline and diesel fuel, formulated to prevent fuel degradation when stored unused for a long time in the tanks of vehicles, boats, agricultural vehicles and gardening equipment and in forestry applications.

- Powerful stabilizer, it inhibits the formation of gum, varnish and insoluble deposits in tanks, carburetors and fuel systems even in the presence of high temperatures.
- Controls the oxidation of fuel by inhibiting its performance decline.
- Protects from rust and corrosion.
- Helps to keep the fuel system clean.

Recommended for agricultural fuels, 4-stroke gasoline and diesel engines, 2-stroke engines.

DIRECTIONS FOR USE

One 150ml bottle treats 50lt of fuel.

For better mixing, it is advisable to pour the additive into the tank before refueling.

STORAGE

Store in original closed packaging, store indoors, away from moisture, from direct exposure to sunlight and weather. Avoid continuous and excessive temperature changes.
