

## T&D Additive

### Product Sheet

**T&D Additive** is an anti-friction and anti-wear treatment for manual change gears, differentials and all gears in general. It is compatible with all mineral, half-synthetic and synthetic oils.

Thanks to its exclusive **BARDAHL POLAR PLUS FORMULA**, **T&D Additive** can strongly reduce friction and wear in all gears.

### ADVANTAGES

- Prevents and stabilizes pitting by decreasing operation temperature.
- Reduces oxidation and protects from corrosion, improving performances.
- Reduces operation noises and the energy absorbed, thus improving lubrication.
- Carries out an anti-welding and anti-seizing action.

### DIRECTIONS FOR USE

Directly add to tank at oil changes at the rate of 5% to 10% of the capacity of the tank, according to load and requirements.

### STORAGE

Store in original closed packaging, store indoors, away from moisture, from direct exposure to sunlight and weather. Avoid continuous and excessive temperature changes.
