

## Garden 2T Power Tools

### Product Sheet

**Garden 2T Power Tools** is a highly performing lubricant developed for the 2-stroke engines of chain saws and gardening equipment, particularly indicated for engines that work at high speed of rotation for long periods and undergo severe working conditions.

**Garden 2T Power Tools** is formulated with high viscosity special synthetic bases, in order to ensure an efficient lubrication all the time and permit at the same time an excellent combustion free from deposits.

The strongly deterging and *low ash* additives employed in this formula permit to maintain clean the hottest parts of the thermal group thus avoiding the build up of deposits on the sparking-plug and between piston throat and piston ring.

**GARDEN 2T Power Tools** contains the exclusive BARDAHL POLAR PLUS formula, able to build a molecular film that, strongly settling on the metal, forms a permanent protecting barrier and thus successfully reduces friction and wear on all lubricated parts.

### PROPERTIES

- Excellent protection against wear and seizure
- Specific for engines that work at high speed of rotation for long periods
- Perfect cleaning of engine and sparking-plug
- Reduces exhaust smoke
- Permits a quick and easy mixing with gasoline

**GARDEN 2T Power Tools** can be used to manually prepare a fuel mixture at 2% or according to the prescription of the manufacturer.

## Garden 2T Power Tools

### Product Sheet

#### PERFORMANCE LEVEL

API TC, JASO FD, ISO-L-EGD, Husqvarna 254XPG Chainsaw

#### CHEMICAL-PHYSICAL CHARACTERISTICS

Viscosity at 40°C	102.6 cSt
Viscosity at 100°C	12.2cSt
Density at 15°C	0.875 kg/l
Pour point	-15°C
Flash point	103°C
Ashes	0.11%

*The values mentioned in this table are only indicative and may vary within certain tolerances*

#### STORAGE

Store in original closed packaging, store indoors, away from moisture, from direct exposure to sunlight and weather. Avoid continuous and excessive temperature changes.
